

E.1 / PAPER 1 / QUESTION 25

25 April 2024 / TZ1 (file label) / HL Paper 1 / original Q38 / 2224-6701

- 25.** When alpha particle scattering experiments were carried out with high-energy alpha particles, deviations from Rutherford scattering were observed.

What was deduced as a result of this observation?

- A. The size of the alpha particle
- B. The size of the nucleus
- C. The nature of the electrostatic field inside the nucleus
- D. The nature of the weak nuclear force within the nucleus
