

PAPER 1 / QUESTION 81

28 April 2022 / TZ2 / HL Paper 1 / original question 20 / 2222-6513

81. A satellite is orbiting Earth in a circular path at constant speed. Three statements about the resultant force on the satellite are:

- I. It is equal to the gravitational force of attraction on the satellite.
- II. It is equal to the mass of the satellite multiplied by its acceleration.
- III. It is equal to the centripetal force on the satellite.

Which combination of statements is correct?

- A. I and II only
- B. I and III only
- C. II and III only
- D. I, II and III
