

PAPER 1 / QUESTION 19

8821-6501 / original question 3

- 19.** X and Y are two objects on a frictionless table connected by a string. The mass of X is 2 kg and the mass of Y is 4 kg. The mass of the string is negligible. A constant horizontal force of 12 N acts on Y.

What are the acceleration of Y and the magnitude of the tension in the string?

	Acceleration of Y/ ms^{-2}	Tension in the string/N
A.	2	4
B.	2	6
C.	3	4
D.	3	6
