

PAPER 1 / QUESTION 140

8825-6719 / original question 4

- 140.** An object of mass m , moving with a speed v , collides with a stationary object of mass m . The objects stick together.

What is the change in kinetic energy in the collision?

A. Zero

B. $\frac{mv^2}{8}$

C. $\frac{mv^2}{4}$

D. $\frac{3mv^2}{8}$
